## STANDARD

- Emergency lowering valves located in pedestal within load area
- 12V DC emergency lowering system
- Telescopic boom
- High tensile strength boom structure
- No knuckle tail swing
- 120° flyboom
- Single joystick IPC control system
- LMC\* – Load Moment Control outreach system
- New illuminated control box design with weather-proof cover
- A-frame stabilisers
- 230kg SWL bucket (duck-under)
- Class leading spare payload
- 360° slew rotation
- Type Approved
- Euro 6 compliance

## OPTIONS

- Twin joystick IPC control system
- Walk-in bucket
- 1kV certified insulation
- Chapter 8 compliance
- Bespoke storage racking
- Operation interface screen
- Slew sensitive outreach
- Remote diagnostics interface
- Increase slew rotation
- Stabiliser controls from bucket
- Slew rotation interlock

Working envelope at 120kg/200kg/230kg bucket SWL

Platform mounted on a 5.2T GVW Iveco Daily 50C

# ETM38-F

## VAN MOUNTED PLATFORM

Emergency lowering valves located in pedestal within load area are safe and easy to access

12V DC emergency ground controls

Impressive outreach with LMC load sensing system

No tail swing outside the mirrors of the vehicle for improved safety

Optional twin joystick IPC control system for enhanced functionality
