

19<sup>th</sup> June 2018

Ref: AB/06/18 – Isuzu LAT-135-H E6

Press Release: For immediate release.

## **NEW Versalift Pick-up Platform has Best Payload in Class**

Versalift UK, Team TIME's largest mounting facilities of vehicle-mounted platforms, has extended its popular pick-up mounted platform range and is now offering its new LAT-135-H E6 mounted on the Isuzu D-Max single cab.

The new pick-up boasts over 500kg of spare payload, after driver, passenger and fuel, approximately double that of other models on the market. Complying with Euro 6, it features a stronger, lighter boom structure manufactured from high strength, high tensile steel and with all-terrain capability, this work horse is one of the most versatile access platforms available.

Equipped with LV certified insulation it reaches a working height of 13.3m, an outreach of 6.1m and has a 230kg platform capacity. It also features double A-frame jack legs front and rear to allow for narrow set up and added stability on uneven ground. Ideal for on and off-road applications, it is an all-rounder providing utilities, telecoms and arborists with everything required to work safely at height.

**Key features of the Versalift LAT-135-H E6 include:**

- New stronger, lighter boom with re-engineered pedestal
- Excellent payload – 500kg after driver (80kg), passenger (80kg) and a full tank of fuel
- 1kV certified LV insulation
- Low travel height <2.6m
- Fully hydraulic proportional control
- Two year warranty as standard
- National Small Series Approved (NSSA) enabling reduced lead times and faster delivery for customers.

A unit is available for demonstration and can be booked by contacting Versalift on 01536 721010.

**24/7 Aftersales Response**

All Versalift customers get great back-up with a 24/7 national Response aftersales service providing technical support, training and next day delivery on OEM parts.
