

1st June 2021

Ref: TF/06/21 – Highway Hire 2022 Order

Press Release: For immediate release

HIGHWAY HIRE COMMITS WITH VERSALIFT FOR 2022.

Identifying that the Versalift van mounted VTL model is the market leader, Highway Hire has placed an order for VTL-135's on Ford Transits and the new VTA-135 pick-up on Toyota Hilux's.

When asked why Versalift and not another supplier of van mounts, Operations Manager for Highway Hire Graham Papierowski, said the answer was simple:

“The product is excellent, the company is easy to deal with, and most of all their back up and support is second to none. No matter where the vehicle is, in a field, by the side of the road, or in a site compound, the Versalift team are there supporting their product. Whether it be a breakdown, a service, or a LOLER inspection, Versalift and their team of fully trained sub-contractors are on hand to support us”.

Chris Wrenn, Versalift's Southern Regional Sales Manager commented that Highway Hire's continued support was contributing to a healthy forward order intake for the company and looks forward to supporting Highway Hire in 2022.
