

14<sup>th</sup> September 2021

Ref: TF/09/21 – VTA135 Isuzu NSSTA

Press Release: For immediate release

## **VERSALIFT'S NEW ISUZU VTA135-H GETS NATIONAL SMALL SERIES TYPE APPROVAL**

Versalift UK have gained Full Type Approval on their brand new ISUZU VTA135-H pick-up mounted platform. Visitors to the Versalift stand at the Vertikal Days event in Peterborough next week will get the opportunity to see the new model which is making its debut.

Completely redesigned, the new VTA features the already well received profiled lightweight boom seen on Versalift's VT van-mounted range launched two years ago. The collaboration between Versalift's Danish and UK Engineering teams has brought about a whole new product which offers users more outreach, more working height and more payload.

Vertikal Days will be held on September 22<sup>nd</sup> and 23<sup>rd</sup> at East of England Arena & Showground in Peterborough. Versalift will be showcasing the new VTA135-H on stand number 411/412.

*The new VTA135-H and Versalift's UK engineering team*

*L-R: James Heminsley, John Cox, Tom Johnson*
